

Weighing a dormouse for the National Dormouse Monitoring Scheme. One of the activities which Kent Mammal Group helps to coordinate.

**Join the Kent Mammal Group!**

For your membership you will receive...

 A newsletter twice a year with up-to-date information about the mammals of Kent, distribution maps, a chance to send in your records and unusual observations, and news about KMG events and meetings.

 A list of the year's programme, with opportunities to attend mammal-related talks, demonstrations and field events.

 The chance to make contact with expert mammalogists, to have your questions answered, your problems solved, or just to chat.

Eurasian otter. Britain supports only one species of otter. Sadly, there are only a handful left in Kent. However, their numbers are now thought to be increasing.

The Kent Mammal Group is affiliated to The Mammal Society.
